

## PVC Copper Tape

*According to BS EN 13601*

*PVC colours to BS 5252 except green to BS 6746C*

The copper is manufactured to BS EN 13601 and is annealed for ease of use. There is a choice of six standard PVC colours to match the most common building materials and provide an aesthetic finish to the external lightning protection system. All PVC coverings are UV stabilised although some discolouration may occur over time. Other PVC colours are also available to order. These may be subject to minimum order quantities and lead times.
